Report on CSR Activity – Flood Relief Donation Activity

Date: 27th and 28th August 2019

Venue: Ground Floor, S.K.N. Sinhgad School of Business Management,
Ambegaon (Bk), Pune

Coordinators: Dr. Sadhana Ogale, Prof. Mayuri Yadav

With the onset of the monsoon in early August 2019, Sangli and Kolhapur continues to be lashed by heavy rainfall causing widespread flooding and displacement in the state. Many people from nearby villages have been affected. Several villages submerged and thousands of homes and acres of farmland destroyed. Residents of temporary shelters and those who are returning to their partially submerged villages battle a lack of safe drinking water, basic needs for survival, sanitation and hygiene facilities.

S.K.N. Sinhgad School of Business Management planned flood relief donation activity on 27th and 28th August 2019 for flood affected families in Sangli and Kolhapur. In this activity vulnerable people received survival things like grocery for one month and steel tins and pans. SKNSSBM students personally reach to the 25 flood affected families and hand over material collected during the activity by college.

Rules and Regulations for Table Tennis Doubles & Mixed doubles

1. Two boys and Two Girls can participate from each college for Doubles (Boys/Girls).
2. One boy and One Girl can participate from each college for Mixed Double (Boys/Girls).
3. Each match is played with 11 points.

Service

Unlike the singles game where the ball can bounce anywhere on the table during service, in doubles, the ball can only bounce on the right half portion of the table for both the server and the receiver.

Like the singles game, the service still alternates every two points between teams, but it also alternates between players on the same team.

Once your team has finished your two serves, you swap sides with your partner. The person you were serving to now serve and your partner is the new receiver.

Order of Play

Doubles matches have a certain order of play that must be followed.

- Imagine two teams ... players A & B and players X & Y.
- Player A serves to player X who then returns the ball. Player B must then play the next shot and player Y the shot after.
- This pattern goes on (A, X, B, Y) until the point is decided.
- If the wrong player makes the return, the team loses the point.

Change of Service

At each change of service, the last receiver shall become the server and the partner of the previous server shall become the receiver. For example, a correct pattern would be:

- Player A has played his two serves to player X
- Player X then plays his two serves to player B.
- Player B will then play his two serves to Player Y
- player Y will play his two serves to Player A.

Player A will then restart the sequence all over again and the sequence will repeat itself until a changeover or the end of the game.

Change of Ends

A changeover occurs when one team has scored 5 points. This will also change up the order of receiving.

For instance, players A & B score 5 points first, whilst A is serving to X. After changing ends, player A will serve to player Y for the remainder of the game.
